

# Geography - Knowledge Organiser

Year 3: Summer Term

Skills and Fieldwork

## Key Knowledge and Skills

## Key Vocabulary

### Locational Knowledge

- To locate rivers on a map.

Map of the River Severn

### Human and Physical

- To understand the distribution of water supplies.

### Geographical Skills and Fieldwork

- Use fieldwork to observe, measure, record and present the physical features using a range of methods, including sketch maps, plans and graphs, and digital technologies.
- Collect, analyse and communicate with a range of data gathered through experiences of fieldwork that deepen their understanding of geographical processes.

Features of a River

Use simple fieldwork and observational skills to find out about the features of rivers.

- Observe and begin to identify the physical features of a river.
- Use maths skills to help me measure and record river speed and depth, with support.

Make a field sketch of a section of the river and label using appropriate geographical vocabulary.

### Fieldwork

Cotwall End nature Reserve – Bob's Brook

Understand these key words

Vocabulary	Definition
Fieldwork	Practical work conducted by a researcher in the natural environment.
River	Flowing water that leads to the sea, a lake or another river.
Observe	Watch or listen to something.
Measure	Find the size, amount, or degree of something by using an instrument or device marked in standard units.
Record	To write or draw from piece of evidence.
Physical features	Features you can see around you such as seas, mountains and rivers.
Field Sketch	Recording observations made during fieldwork.
Speed	The rate at which someone or something moves
Depth	The distance from the top or surface to the bottom of something
Map	an accurate drawing, showing the shape and features of an area of land.
