

Mobile phones

We ask that all adults and visitors leave their mobile phone in a safe place during their visit with us. No one should take a photo of you if you don't want them to and **never** on their mobile phone. If you see someone using their mobile phone to take a photo of a child, tell a trusted adult immediately.

The Fire Bell

If you see a fire, tell an adult immediately.

If the fire bell rings then we all need to make sure we leave safely and calmly. When you hear the fire bell ring, walk calmly out of the school using the nearest door and walk to the Key Stage Two playground. Don't worry about returning to your classroom, you can meet your class on the playground when we check that everyone is safe.

Accidents

All of the adults want to make sure you are looked after. If you hurt yourself then make sure you tell an adult so that we can give you some first aid. If you can't see an adult then take yourself to the school office.

If you're worried

If you see something that worries you or you think something isn't '**right**' then you can tell an adult that you trust. It doesn't matter who this is as long as you share your worries so that we can help you.

Child Friendly Safeguarding Policy for Straits Primary School

Keeping you safe in school is one of our most important jobs. Sometimes schools have lots of things that are very complicated to read so to help you understand how and why we keep you safe we have made this booklet.

The adult in charge of keeping you safe is: Mr Freear

The adult who helps him with this job is: Mr Wade

BUT all the adults in this school have an important job in making sure you feel safe.

How do we keep you safe?

- We work hard to make sure that children behave themselves and make the right choices. If someone is doing something they shouldn't then we will help them put it right and act to keep everyone safe.
- We will make sure we listen to any worries you may have and we will find time to talk you about these things. Sometimes you might want to draw these worries as a picture—that's fine.
- We will make sure that you know that there are adults in the school who you can talk to if you feel worried or are in difficulty.
- We will talk to you about how you can keep yourself safe in lessons and assemblies—this will include how to be safe online, outside school and where you can get help.
- We will work with your parents to make sure that everyone around you is helping to keep you safe. Sometimes we will talk to other adults (social workers or family workers) so that we are all working together.
- We will make sure that everyone who comes to work at our school is safe and friendly and will work hard to look after you.
- We provide you with lots of opportunities so that you can grow up to be happy and successful.

If you talk to us about a worry...

- We will listen and believe you.
- We'll make sure we find time to talk to you in a safe and quiet space.
- We won't be shocked or upset by anything you want to tell us and we won't tell you off for sharing with us.
- We might have to talk to Mr Freear or Mr Wade so they can help you—but we can do this with you.

Here are some other websites or people that can help you.
